FOR THE STATE SENATE—WITH DISTRICK, DR. E. D. STANDIFORD, Of Jefferson County

Let us End this Bloodshed!" The New York Tribune concludes an arcicle upon the collission that recently or curred between the citizens of Opelou d the negroes in these words. Friends in Pennsylvania, Ohio, and Iudian t us end this bloodshed. Give no ove

vhelming victories at the approaching ele-ion, and let us have peace.

The Tribune is profoundly impresse for which they were really desired by with the importance of the elections that -to the credit of the frater who hadnows that if Pennsylvania, Indiana, and destination. The Rad are, of core, is Dhio then pronounce against its party, the great trouble about the until it fate of that party will be sealed definitely election is coming on apace, and how can fate of that party will be sealed definitely and irrevocably. Of late its columns are filled with earnest appeals to the voters of those States for assistance. Here we have one of them—one of the most pitcous and lachrymose it has uttered. "Let us end this bloodshed! Give us overwhelming that it is its duty to it if it is that it is its duty to it if it is that it is its duty to it if it is that it is its duty to it is in that it is its duty to it is in that it is its duty to it is in that it is its in the columns. this bloodshed! Give us overwhelming purpose. If, as has less tated, the arm-victories at the approaching election, and

the have peace?"

The Tribune editor is in an agony of apprehension. His heart is filled with misrivings, and his soul vexed with the conplation of the situation. Therefore he heir candidate next month, and the s aloud for succor. Therefore his voice ting the indersement of the people to their swells through three States, sounding more policy, it will not be long before C like the wall of despair than a confident or will present just such a spectacle as the hopeful appeal. Orlando blew his horn at Roncesvalles, and miraculous was the consequence of the blast; but the white-coated philosopher of the Tribune is no Orlando, and no wondrous events are likely to follow this expending of his wind. The battle you go to the polls next Tuesday is destined to go against him, for his cry will be all unheaded by the men of Penn-field-hand squatted down in the seat one sylvania, Indiana and Ohio. It were some-thing if, like Oriando, be could die in this pated, cho-shinned descended of Ham. contest seeing that he had accomplished from the rice plantations of bouth Caro-something, and with honors clustering thick in a, mumbling his inane gill ris to about him; but it is ordained that he shall the place where Webster stood when he go down to his political grave unheeded, gave utterance to speeches that are de-unhonored and unpitied. The freemen of tined to an immortality of far. Pennsylvania, Ohlo and Indiana under stand too well what the Tribune's appeal

nacans for it to have the desired effect.

"Let us end this bloodshed." The nia to voic. When our i)emocratic fri words are well enough. Heaven knows the country has had enough of bloodshed would be no more than they do rewithin the last few years. Heaven knows they were left hanging around to some purnore than enough hearts have been pose. that more than enough hearts have been made desolate in the nation by the blood-ahed that has occurred—that too constantity has the voice of woe and immentation out becoming naturalized, but no born raised of late throughout the land. white men have to live in the country of been raised of that infrogram the land.

The people are indeed resolved that this bloodshed shall altogether cease. None but a Radical or a fiend could desire that the land of the land o it should be renewed and prolonged.

Enough of slaughter has occurred in the markable sermon. Rhough of saughter has occurred in the seven years that have just gone by, one would think, to actiate Moloch himself, and now it is surely time that white roled Peace should resume her eway. Three years ago it was thought that sway would be re-tored, but her throne was seized upon be restored, but her throne was seized upon by an usurper, and thus the reign of blood shed and crime still goes on. This must be released. This is that has act us all of the most of the rest of the rest of the respect to the rest of the

that it shall end. The people of Pennsyivania, Indiana, and Obio have decided that it shail end. If things were allowed to go on much longer in their present source the nation would soon bleed again If the New York Tribune's status were from co

ing, it is time for me being a light of mellons of peace laugh to accord the Tribnne and its exhortations, for well they know what it all means, and what would be the effect of the "overwhelming victories" asked for in hehalf of the Radical party. The people of Pennsylvania, Indiana, and Ohio next Tuenday, and the people of the United States on the 8d of November, will prove how well they sympathize with those who reality wish for peace by giving overwhelming victories in favor of the Democratic party. Does the Tribune really think to puss itself upon the people as the sincere advocate of peace vot only are there those who "put on the very of heaven to serve the devil in," but that in instance of the sixth of the source of the same and the sixth of the same and might expect to receive eredit for the sincerity of its professed desire for peace. As it is, the real friends of peace laugh to scorn he Tribne and its exhortations, for wall by giving overwhelming the possibility of the Democratic party. Does the Tribuna really think to pass itself upon the people as the sincere advocate of peace. Not only are there those who "put on the livery of heaven to serve the deril in," but your attention to a faw of the your attention to a faw of the high standard particular to the high sta attempted to diaguise himself as an angel of light that he might the better delude the to like depths any spirit time unwary. For the Tribune to take npon itself the character of an apostle of peace is well-nigh as gross an attempt at imposition. We have a said, this would be but to the cause. Justly has to look be-

neath the surface and examine the real and why fly for one from meaning of the Tribune's appeal. We proved itself false in the meaning of the Tribune's appeal. We call upon every voter to look beneath the drapery of deceit and behold the cioven hoof. The Tribune is an organ, and in one sense the chief organ, of the Radical party. How then can its professed desire to "end this bloodshed" be construed except as a pretense for the accomplishmen of a most disastrous and criminal purpose Do not the people know that the Radshed, all the sufferings, all the woes and so rife in the land! And does any one doubt that its policy, and its policy alone has prevented the pacification of the counfor the past three years? Is any on ignorant that Radical policy tends to the uguration of a general war of races at the south? What then is the Tribune plan of "ending this bloodshed!" Are we not to conclude that it is to be by the utter xtinction of the white race at the South, and the complete destruction of constitutional freedom every-where? Ardently as the people desire the "ending of this bloodshed," yearningly, as they long for "peace," they do not desire it, and they will not accept it,

on such terms. They intend to have a consation of bloodshed, they have resolved that the restoration of perfect peace shall be accomplished, but their wishes must be ulfilled not after the manner of the "new nation," but in accordance with the old rder of things, not after the method of the Radicals, but in accordance with that pro-

poued by the Democratic party. The Tribune's candidate for the Press lency, before it, less said "Let us have slavery, the Russian announced that "per reigned in Warsaw;" and we suppose if t Rudical should succeed in the destruction extirpation of the white race at the South they will exclaim in the same spirit that peace reigned in the United States.
